

## TEXAS EMIGRATION AND LAND COMPANY.

320 Acres of Land for \$20,000-160 Acres of Land for \$10!

THE TEXAS EMIGRATION AND LAND COMPANY having derived its Grant from the late Republic of Texas, by contract made with the President thereof, under authority of the special acts of Congress, approved 4th February, 1841 and 16th January, 1843, granting lands to Emigrants, will continue to give 320 acres of land to families, and 160 acres of land to single men over 17 years of age, until the 1st day of July, 1847, conditioned, that the family shall pay \$20, and the single man \$10, for the surveying fees. A family, as defined in our Contracts, must consist of—"A man and his wife, with or without children." "A widower with two or more children; if males under 17 years of age, if females unmarried." "A widow with two or more children; if males under 17 years of age, if females unmarried." "Two single men over the age of seventeen years, each one being entitled to 160 acres."

On his arrival in the Colony, the Emigrant should forthwith apply to the agent of the Company, Mr. Henry O. Hendricks, residing at Stewartville in Denton county, who will at all times be ready to assist him in the selection of his land, and enter the same on books kept for that purpose, and give him a certificate therefor, which certificate will be evidence of his having settled in the Colony in due time.

Our Grant lies in the North-Eastern part of Texas, between the 32nd and 34th degrees of Latitude North, and 96th and 97th degrees of Longitude West, from Washington, beginning on the south side of Red River, at a point 12 miles east of the False Ouachita, running thence North 100 miles, thence East 164 miles, thence North 100 miles, thence West 164 miles to the beginning, having a front on the meanderings of Red River of nearly 300 miles; and includes within its limits the upper and lower Cross Timbers, and the head waters of the Brazos and Trinity Rivers, the Trinity being a desirable location for the light draught, from the interior of the Colony to the Gulf of Mexico into which it empties, some 25 miles from Galveston, and Red River, to the Mississippi, affording an outlet for the surplus productions of the country. This portion of Texas is peculiarly adapted to the growth of wheat, experience within the last two years having tested the fact, that it will produce 40 bushels to the acre, weighing 65 to 70 pounds to the bushel. Indian corn, rye, barley, oats, wheat, Irish potatoes, peas, beans, melons, garden vegetables of all kinds, cotton, hemp and tobacco, and the celebrated muskrat grass which covers the prairies and upon which cattle subsist, and keep fat during the winter, and require only to be occasionally salted and kept together, to rear them in great numbers.

The planting season commences in February and continues until July; but the early crops are most productive. Emigrants should go on in the fall or winter, so as to be ready to put in an early crop. Those going from Missouri, Iowa, Wisconsin, and the northern parts of Illinois and Indiana, should go through Missouri or Arkansas to Van Buren, Fort Smith, Fort Towson, Colfax's Station or Pine Bluff, thence into the settlements in the direction of the forks of the Trinity. Those going from other sections of the Union, south, should go to Helena or Columbia, Ark., Memphis, Tenn., or Natchez, Miss., and thence across by land; or to New Orleans, and thence by Steamboat up Red River to Shreveport, Louisiana, at which place an agent will be stationed, who will give the emigrants directions as to their route by land to Dallas and Stewartville, a distance of some 200 miles.

Our colony is rapidly filling up with an industrious, intelligent and moral people, and must soon become the most populous part of Texas. The Government has recently formed the counties of Grayson, Denton, Collin, and a part of Grayson and Navarro within the Grant. It is decidedly the most healthy part of the state, the lands having a gently undulating surface; there are no ponds, swamps or marshes, and no local cause for disease. The atmosphere is pure and pleasant. During the warm months of summer there is a constant breeze playing over the prairies, and the nights are invariably cool; the thermometer never rises above 85 to 90, and in the winter never falls below 30 degrees Fahrenheit. It abounds in springs, and at the depth of fifty or twenty feet, in the midst of the prairie, the best water can be had; all the small streams are peculiarly clear and crystal like. Colonel William Myers, who removed there from Garrard County, Ky., last fall, says, in a letter dated 8th May, 1847: "I will not venture to tell my friends in Kentucky that the land here was better than the best land in Kentucky, because they would not believe it; but now I assert it, for the soil is deeper, being in many places five feet, and the kindest land to work I ever put a plough in. I verily believe that around the forks of the Trinity, lies the largest body of first-rate land in America." From the forks of Trinity to Santa Fe, is only about 600 miles by the old Spanish trail, and the newspapers in Texas are not only in the Colony, but that he must have selected his land, built a house or cabin thereon, and be residing therein with his family by that day;—one day after that date, and the opportunity of getting lands for nothing is, perhaps, lost for ever. Persons desiring additional information, by addressing the undersigned Trustees or either of them, post paid, shall receive prompt attention.

## Mackenzie Compound Liver Pills

These truly Celebrated Pills.

NOW properly esteemed in all neighborhoods where they have been used, were first made some Twelve years ago by the proprietor, from a Vegetable Extract, and then recommended by him as a superior Bilious Pill.—He then resided in an eastern City. On his removal to the west, in 1836 he was soon forced to observe the very general complaint then and now prevalent, of a Diseased state of the Liver, Jaundice &c. His long experience of the primary causes, and disastrous results of an affection of this all important working agent of the human frame, and possessed as he was of a practical knowledge of the specific action produced in that organ (the Liver), by the Extract so successfully resorted to by him in eastern practice, induced the Proprietor to give his Pills a trial in those diseases where Chronic or Torpid State of the Liver was complained of. The result in every instance, so far as he has been informed, has shown their Complete Triumph over that disorder. Thus convinced of their complete efficacy, he has ever since invariably recommended them; and thousands who in the health-restoring use of them have been benefited, now bear witness to their powerful effects in ridding the system of all those diseases connected with or dependent upon an unhealthy state of the Liver, such as Bilious and other Fevers, Jaundice, Dyspepsia, Sick Headache, Flatulency, Heartburn, Habitual costiveness, &c.

In view of all these facts, the proprietor in recommending his COMPOUND LIVER PILLS, does so with the greatest confidence in their properties of preventing and curing Bilious Diseases. He assures those who may have occasion to use them, that they are strictly what they purport to be, being prepared expressly for the afore mentioned diseases. They act specifically on the Liver and Viscera; remove all congestive action and morbid secretions; purifying the blood; causing a free and healthy discharge of bile strengthening the system, and assisting digestion. ## Dr. Murphy's Sugar-Coated Vegetable Anti-Bilious and Anti-Dyspeptic Pills.

PREPARED BY WM. H. MURPHY, M. D. 384 Pearl Street New York, PRICE 25 CENTS PER BOX. These Pills are composed entirely of Vegetable ingredients, and contain not one particle of calomel or mercury in any form, nor any mineral substance whatever, and may be taken at all times, and under all circumstances, and by all ages, without any fear of the sad consequence often attending mercurial and mineral preparations. Persons exposed to changes of weather and climate—travelers, emigrants, seamen, soldiers, &c.—are recommended to provide themselves with a supply of these Pills. Their extraordinary efficacy in those complaints which prevail in our Southern and Western States during the summer months, and particularly along the banks of rivers, lakes and ponds, and in those seasons where the land is not all cleared up and drained, might be seen from the piles of letters received by the Proprietor, which have been addressed to him by those who are grateful for the benefit derived from the use of his Pills.

## CONSUMPTION and Liver Complaint.

Dr. Taylor's Balm of Liverwort has been used successfully for eight years in the cure of these diseases. Remember the original and genuine is made only at 375 Bowery N. Y., all others are spurious and unauthorized.

TO THE PUBLIC.—We hereby certify that our son, six years old, was suddenly taken ill with a fever, and after a severe sickness; a violent cough ensued.

He was bloated, his skin was filled, and his physician said there was no favorable symptom about him that he had confirmed consumption. At that time we began to use Taylor's Balm of Liverwort, and we began to have hopes of his recovery. He continued until he had used five bottles. It is now a year from that time, and his health is better than it has been since an infant. DAVID & HANNAH ROGERS.

A SOVEREIGN remedy for Ague and Fever.—This great Remedy, to which the public attention is particularly called, has been extensively used in the western & south western states, as a speedy safe and certain cure for Ague and Fever, Dumb Ague, Chill, or intermittent Fever.

The unexampled and complete success attending its use, and so well proven have become its wide spread victories over every form of Ague in the west that the 'Febrifuge' is now superseding every other offered remedial agent, and looked upon as the only one that can be relied upon in all stages of the disease.

The many thousands of instances wherein it has wrought cures, while no instance is known, nor can be shown of failure, warrants it in being offered as possessing the three cardinal merits, without which no medicine can be safely used in Ague cases. These merits are, that its cures are safe, certain and permanent. C. S. Mackenzie & Co Cleveland Ohio, proprietors.

## VERY IMPORTANT COMMUNICATION

TO ALL PERSONS IN ALL PLACES, At all times, And under all Circumstances!

If you are sick, get cured; if well, employ measures to continue so. Every individual indulges in habits, which must, to a greater or lesser extent, disarrange the admirable and intricate combinations which form the system, and consequently

EVERY INDIVIDUAL should possess some mild, yet efficacious, simple and accredited agent for preserving all functions of the body in good order.

## DR. WOOD'S SARSAPARILLA AND WILD CHERRY BITTERS

will achieve this result, and should be in every family, and in the hands of every person, who, by business, profession or general course of life, is predisposed to the very many little ailments that render life a curse, instead of a blessing, and finally result in their aggregated condition in the

## OF DEATH.

The Bitters here mentioned are compounded by a man of great skill and knowledge, from the simples Nature presents to those who care to find them, and which are the only reliable antidotes to the poison of disease. The chief ingredients are the universally beloved Sarsaparilla and the Bark of the Wild Cherry tree, with which the real man of the forest cures nearly every disease of the internal organs. These materials, though powerful in their action, are, as common sense teaches us.

## ENTIRELY HARMLESS.

and prepared as they are here, one of the greatest medical operatives in the inhabitable globe. By taking these BITTERS, the scrofulous may be restored to health; and avoid the sharp knife of the surgeon; for they not only eradicate pimples and tumors, but overcome

## CANCER AND KING'S EVIL!

Whoever is subjected to the horrors of constipation should at once purchase this sure remedy. In the train of Costiveness follow dreadful local congestions, oftentimes insanity, very frequently mania or hypochondria, violent headaches, palpitations, and other affections of the heart, and rheumatic swellings.—Dr. Wood's Compound is one of the most efficient medicines in routing these complaints, and their fountain head that can possibly be procured.

From being confined in close rooms, and from taking a small modicum of exercise, numerous persons daily are made to deplore a loss of appetite, headache, weakness of the muscles, languor want of energy sufficient to permit them to seek recreation, &c. &c. These persons say for years that they "don't feel very well." If they do not employ a method by which they can feel quite well, they eventually sink under a severe fit of illness, and are

## SAVED FROM THE GRAVE

only by a miracle, and even then the lancet, leech, blister and calomel have left them mere shattered shells, full of aches and sorrows, and not only a pest to themselves, but a source of disgust and annoyance to all with whom they come in contact. All these

## FEARFUL CONSEQUENCES

may be avoided by an early application to the virtues of these BITTERS. For the truth of this, the proprietor pledges his word and honor, and in evidence can show files of undoubted certificates which he has received unsolicited from all quarters. He does not however, ask the invalid to swallow his certificates, but his Bitters, and is willing to stake all he holds dear on earth in favor of their worth.

## THE DYSPEPSIA.

in either a modified or severe form, will disappear before the qualities of Dr. Wood's preparation, and the cure may be relied on as a permanent one. Did the BITTERS possess no other recommendation, it would be one of the finest vegetable compounds medical science can invent; but it is equal to the complete eradication of

in every shape, and of every affection, minor or gigantic; of the bilious apparatus. Individuals who are constitutionally bilious ought regularly to take this mild agreeable and excellent TONIC AND APERIENT, as it will diffuse health throughout every fibre of the frame, and send happiness and love of life thrilling to the heart. Families ought to keep it on hand.

Every medicine chest on board ship should also be well stocked with this capital remedy, as SCURVY cannot afflict those who take it, or long resist its vigorous assaults. ALL IMPURITIES OF THE BLOOD vanish before it, and the old relics of early imprudence invariably disappear, soon after being submitted to its action. Every complaint of the stomach is broken by it. The Bitters have in no instance failed of curing JAUNDICE, GENERAL DEBILITY every disorganization of

## THE NERVOUS SYSTEM.

By neglecting the little inroads made upon the dater a vast portion of our fellow beings are rendered extremely miserable—so miserable, indeed, that they wish to die. Every bottle of "Dr. Wood's Sarsaparilla and Wild Cherry Bitters" contains a modicum of joy and content far each of these anxious and imprudent sufferers. Remember that an injudicious use of mercury is inevitably productive of many evils which are put to flight by this glorious and unsurpassable compound; and that afflictions which are

may speedily and safely be shuffled off through its agency. As a medicine which must benefit EVERYBODY

from the simplest delicate to the confined and despairing invalid, no equal is to be found for it. It would be well to bear in mind that preventive is infinitely more desirable than cure, and that Dr. Wood's Sarsaparilla and Wild Cherry Bitters ARE BOTH.
